- Program Support: (844) 401-7702

**PROGRAM INSTRUCTIONS**

Walmart Optical bills the employer for the cost of single vision, bifocal, or trifocal lenses, a safety frame through GROUP 2, sideshields, the dispensing fee, and the handling charge. All ANSI approved frame and lens options are allowed.

Difference in cost for progressive lenses over the lined multifocal package price, frame cost over $33, and cost for allowed lens options not covered by the employer are the employee’s responsibility payable to the eyecare provider. Walmart Optical bills the eyecare provider for these costs to be collected from the patient.

Walmart Optical reimburses the eyecare provider the $20 dispensing fee paid by the employer. Enter your office information, enter the prescription and order detail, and determine any employee portion. Fax this completed form to the lab for fabrication. The complete safety eyewear is mailed to the eyecare provider for Rx verification and a proper fitting.

A current eyeglass prescription is required (not expired, dated within 2 years). Eye exam costs are not part of this safety eyewear program. Eye exam cost is the employee’s responsibility, payable to the eyecare provider.
